FOR BABY'S SHIN

Something for Mothers to Think About

EVERY CHILD born into the world with an inherited or early developed tendency to distressing, disliguring humours of the skin, scalp, and blood, becomes an object of the most tender solicitude, not only because of its suffering but because of the dreadful fear that the disliguration is to be lifelong and mar its future happiness and prosperity. Hence it becomes the duty of mothers of such afflicted children to acquaint themselves with the best, the purest, and most effective treatment available, viz., THE CUTICURA TREATMENT.

Warm boths with Curreura BOAP, to cleanse the akin of crusts and scales and soften the thickened enticle, gentle ancietings with Chricuna Ourrest, to instantly allay itching, irritation, and inflammation, and soothe and beal, to be followed in the severer cases by mild doses of Correura Ruson-VENT PILLS (see below), to cool and cleanse the blood, are all that can be desired for the alleviation of the suffering of skin-torthred infants and children and the comfort of worn-out, worried mothers. A single set is often sufficient to cure when the best physicians fail.

Millions of Women Use Cuticura Soap Assisted by Curigues Otherner, for preserving, purifying, and beautifying the skin, for eleansing the scalp of drusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and southing red, rough, and sore hands for baby rashes, itchings, and challegs, in the form of baths for amonging irritations and indemnations, or too free or offensive perspirition, in the form of washes for electric weaknesses, and for many annative, antisoptic purposes which readily suggest themselves to woman, especially mothers, and for all the purposes of the toilet, bath, and nursery.

CUTTOWN BUSINEST PRILE (Chocolate Coated) are prepared to meet the wants of delicate women, and sensitive children, and are pure, sweet, and tasteless. They are beyond question the most successful blood purifiers and humour cores yet compounded. Corrected Renging are sold throughout the world. Anstralian Depot. R. Towns & Co., Sydney. THE SITUATION IN VENEZUELA.

WILLEMSTAD, Mar, 3,-According to trustworthy advices received here, the situation in Venezuela is unchanged both internally and as to foreign affairs, except that the relations between President Castro and the various Legations at Caradas are a little more strained.

Castro has now cossed to fall with the European representatives concerning the Venezuelan indebtednoss, and the recent recall of General Velutini, Second Vico-President of Venezuela, who has been in Europe for some time endeavouring to arrange a settlement with the British and German bondholders, is regarded as an indication that the regotiations have failed. It is eaid that no diplomat has been able to secure an interview with Castro concerning disputed international questions for months.

L'resident Castro maintains his belligeront attitude and continues to make military preparations. He apparently regards an attack on Porto Cabello and La Guayra an probable, and has mounted six new French eix-inch guns and a number of small guns on the heights overlooking these ports, and has available three small coast-defence vessels. It is said that the majority of Venezuelans look upon the possibility of foreign intervention either with indifference or favourably, as present internal conditions are esusing much unrest.

Neighbouring South American republics. also seem to regard the idea of intervention without resentment. Brazilian newsgapers are openly advocating a settlement of effairs to Venezuela, and the South American Press generally is loss caustic in ils criticisms of American interference in the affairs of southern republic :

Castro's attitude is reflected in a pamphlet just issued through one of his advisers. Colonel Juan Bautista Lamedo. in which plans for sending 300,000 Venezuelans against New Orleans are disclosed. The paraphlet urges the public to avengo-the maults offered to Venezuela by the Americans, and declares the invasion of the Mississippi valley would be the most effective means of curbing the power of the United States.

Castro's army, made up of negroes and Indians, is small, ill-armed, and inefficient. Rumours of internal risings are constantly received, but none of the revolutionary movements his strong boancial backing. and the overthrow of Castro by means of civil war is considered unlikely by the foreign residents.

EMPORITIES IN THE BLOOD .- We have seen hosis of letters from all sorts and conditions of people, in which the writers acknowledge the benefit they have received from Clarkes's Blood Misture, which as a curetive agent cannot be too thighly nationated, since it charses and clears the blood from all imparities and restores it to its normal condition. This is a good testimonial from the L'amily Doctor, the popular medical weekly, which goes on further to say: . It is certainly the finest blood purifier that science and skill have brought to light, and we eran with the utmost confidence recommend it our subscribers and public generally.

BIX YEARS IN A CHINESE VILLAGE.

The crowd armed themselves with the West River and whose experiences, iron missiles and when the mounted while they were practically held prisoners, police arrived the mob showered volley should serve as an additional note of warning to all white women sgainst marrying Chinese. Their experience is that of many who have preceded them, and are now paying the penalty for having dis- churia, sparsely populated though it is in good or bad fortune, they are usually regarded the warnings that are continually being sounded in newspapers throughout

> and the third comes from Chili. The first of the former went to the village his years ago and since that time has been prevented; from leaving it although she has almost salvation of his country or the glory of his over since desired to do so. Sho was seen by a CHINA MAIL representative, at the Italian Convent, this morning, and gave an account of how she came to be in her prescut unenviable position.

-From her story it was gathered that employed their for transport work. I have hold that the "yellow peril" scare some years ago she met a certain Chinaman, and thinking that if she accompanied him to China she would have a life of case and luxury she consented to do so. They proceeded to the village of Saucheung, some distance beyond Kongmoon, and there she found that her husband was a min of some importance in the village. She also found that he had numerous other wives, with whom she was compelled to share his affection. One of the latter, a small-footed woman, soon conceived a great dislike for her, and when the master of the house also began to swere quartered upon them and as the weary of her repeated requests to be sent back to her own country, found plenty of

opportunities to treat her very cruelly. The Chinese woman frequently beat her, with the assistance of her friends, and on one occasion inflicted a big cut on her head. Meanwhile the Australian wife had been stripped of all her European clothes and compelled to don Chinese attire, which, attempted to take advantage of the reculiar some slight signs of improvement, has until arriving here this morning, she continued to wear.

Life in the village she declares cannot be described. She was compelled that all the peoples of China hold strong to live in an evil-smelling Chinese views about the sauctity of the home, and eat even most horrible Chinese foud and to work in the fields as an ordinary coolie woman. When she re- I visited on two or three occasions the fused to perform the work required she was beaten into submission. Her efforts. to escape, were always frustrated by her husband who threatened to kill her if she did not settle down quietly. Six days ago the present chance came.

The husband was on a visit to Hongkong and the woman having previously enlisted the sympathy of a Customs Officer made her, way, accompanied by the two other women, to Kongmoon and was may then be easily understood that the there taken on board a Chinese Cruiser by the Customs people, and although her husband, on hearing of her flight, tried to have her returned to him the Customs people prevented him from carrying out

And it will be well essential to the belligarents. When the Russians were pressed back it simply meant to John a change of masters, and as the payment was maintained on a higher scale he was per ectly satisfied. As a fact a cart owner was paid by the Japanese at the rate of you 7; or about 14/-a day, which by the end of the campaign would run into an

But the hapless residents of the villages on the line of march fared badly indeed, In turn the troops of Russia and Japan weather grew colder their stocks of dry kinoliang laid by for the winter were requisitioned to keep the fighting men warm. Often in a little two roomed hut 20 or 30 soldiers and a similar number of Chinese would be huddled together. Of course I can only speak of the Japanese but I must say in common justice that the troops did their best to lighten the burden which pressed upon their hosts. I only heard of very few instances in which the soldiery and condign punishment quickly visited the offenders.

Nonetheless, the Manchus had a very unhappy time of it. Most people know that if one visits a Chinese official It is a very unusual thing even to see the femal side of the establishment. As an instance military mandarin at Liaoyang, who by the way, regated me with champagne mixed with ten heavily sweetened. He invariably treated marwith the greatest kindness has only on one occasion did I see anything of his wives-he had four or five. This was when I was taking a snapshot of His Excellency as he was standing at the entrance to his residence. I happened to look at the over acreemed room on my left and saw four astonished looking Manchurian matrons regarding me with apprehensive in terest. As soon as they saw that I noticed they were porping they disappeared. Manchus strongly disapproved of aliens liv ng and sleeping in some instances in the same room as their families. But it had to be endured. What was much worse was destruction of their houses as the weather grew colder. I must express my opinion the rank and file the necessity for respecting the houses of the natives. At all events the soldiers, with singular shortsightedness,

when fuel became scarce made fires with all the woodwork they could hack off the houses. At Shiliho when I left the doors and framework of the windows in nearly every house had been used for kindl ing and the gaps were filled up with kizoling. Personally I strongly suspect that the belief was latent in Hailii Sin's heart that he would winter at Monkden, and if so, one cannot help feeling soberty content that he has had to reap the baryest sown by his selfishness. But that does not make the position any better for the unfortunate women and children who have suffered terribly during the months of December

In another way also the feelings of the States. Manchus have been agonised. A conspicuous feature of the landscape of-southern lieves the management sweep of the millet fields is the presence of tree clumps round the grave mounds which dot the landscape and the screen of forest which surrounds | Kigg of the Hongkong Observatory :every village. > for those who hear to heed. FREIGHT CIRCULAR.

Messra Lamke and Rogge report under date of Saturday, April 22:-

The issue is a day parlier than usual, tomorrow being Good Friday. The freight market has remained in much the same position as last reported, though actual chartering has been confined to

somewhat smaller compass than during the preceding fortnight. Business from Saigan to this has continued levoid of animation, and only two settlements have come to pass on basis of 13 conts per picul. The local rice market, after circumstances in which they were living relapsed into atagnation, and grain prices at Saigon, although lower than heretofore.

will have to recode yet to render fresh

chartering possible. The most noteworthy feature of the period under review has been the strong inquiry after prompt vessels to lead Saigon to Philippines ports, and several charters were drawn at figures ranging from 30 to 36 cents per picul. The demand continues unabated, and closing rate may be quoted 33/34 cents, i.e for boats only, that are in a position to leave Saigon latest on the 1st prox. On cargoes in vessels deporting later, the new import duty, alluded to in our last circular, will be levied by the Philippines, No transactions Saigon/Java have been

reported, neither from Java to this. From Sai on to Japan only one fixture is on record, that of a small carrier at 33 cents per picul. Quite latterly the enquiry appears to have temporarily a opped, operators and owners likewise, with the appearance of the Baltic Squadron in Eastern Waters, evincing a certain hesitancy in entering upon fresh engagements in that

Grain in Bangkok is reported in good supply, and as seen as the local rice market has recovered from its present sluggish state, outside tonnage will in all probability got a chance to chip in. Berth rates are firm at

Whilst rates from here to Chefoo and Newchwang have been well maintained, 37 and 50 cents respectively being still held out for prompt boats, no improvement is noticeable, as far as return freights are concerned, in every other direction how Majesty's Mails, will be despatched from the market is fairly active and rates are 8th

following an apward tendency. Only one charter has been brought about Meji to this at \$1 40 per ton, and this rate 0,522 tone, from Colombo, Passengers' acis quoting at the close. On time basis the fixture has been con cluded of a small Norwegian steamer for

short term to cover a special requirement. Sailers :- American ship "S. P. Hitch- be transhipped at Colombo into the mail cock" will shortly proceed to the Philippince, where she is to load hemp for the London; other cargo for London, &c., will

Masters of ships coming into the harbour Perhaps what brought home most strongare continually being inconvenienced by Manchus was a sight I had the misfortune the large numbers of sampars and other to sed during the battle of Shaho. The small craft that are fastened on to their vessels while under way, in order to get on the infantry who were sheltering behind board to scoure passengers or cargo. The which a quarter of an hour before they had expelled the Russians. Let me here unreservedly confess that I was frankly glad to and this morning, at the Magistracy, seven share the shelter. Beyond those walls the junkmen were charged with fastening on to hir was thick with death; shraphel cloud the sreamers "Houam" and "Pandua"

Three Chinese water-boat men were the order to advance. My attention was dis- | charged by Inspector Langley, at the Magistracy, this morning, with obtaining water for sale to ships from unauthorised streams,

> register, and the s.s. "Aphrodite," 3,949 tons gross register, both bound from Barry to Vladivostock with coals, and both owned by the Cornhill Steamship Company (Harris and Dizon, managers), have been captured by the Japanese. Ship, freight, and cargo are insured against war risk for £52,000 by the "Venus" and about £19,000 by the FINE above steamers a Disconsolate Underwriter' sent the following to Fairplay :-

"Aphrodite," Queen of Love ! "Venus," sweet as turtle dove ! Two in one, or one in two. I wish I had not written you

The report of the Hamburg American Company, shows its vessels represent a gross measurement of 764,451 tons, maktains 46 regular lines of steamers. The present statement is best shown by the following comparison:—In 1992 there was a disposable balance of m. 4,5 0,000, and a dividend of 45 per cent, was paid; in 1903, m. 6.000,000 and dividend of 6 per cent; in 1904, m. 9,000,00 and divid and of 9 per cent. Thus the results of the past year are just twice as favourable as these of 1902, achieved in face of the struggle on the North Atlantic, which has been popularly regarded as of a deadly character. An important source of revenue has been the sale of the "August Victoria," the "Furst Bismarck," the "Columbia and the cargo steamer "Belgia." The report does not say that the vessels were sold o Russia. They are merely described as sold with profit abroad. The voluminous chartering business of the past year, which we cannot belp associating with the war, does not come into the account, nor does the recent sale of two other shire. would appear, therefore, that a very considorable nest-egg is retained for next
